PRESIDENT'S MESSAGE

Now that we have "rung in" the New Year, many of you are probably working on your own family history during these cold months. While you are at it, have you sent your ancestor chart with index cards for each ancestor to OGS? All OGS members are notified if there is a "match" - someone else has sent in a card on the same name.

Now is also a good time to check and be sure you mailed in your membership renewal. It is easy to overlook these things during the Holidays.

Has your chapter reviewed its constitution recently? You should review it every two or three years to be sure it still meets your needs. We would like to have current copies of your constitutions at OGS Headquarters. If you are incorporated, you must notify the Secretary of State of any change in name, change in principal location, or any change in your "purposes" - which you completed on Form C-102 when you incorporated. Also, if you are incorporated, a Statement of Continued Existence must be submitted every five years but the Secretary of State will notify you 120 days in advance.

The Ohio Department of Health has transferred all death records over fifty (50) years old to the Ohio Historical Society. Death records prior to December 20, 1908, can be obtained from the Probate Court in the county where the death occurred. (Death records have been kept since 1867.) From January, 1937, to present, write the State Office of Vital Statistics. For those records between December 20, 1908, through December, 1936, the Ohio Historical Society is busy microfilming the State Health Department's indexes and they will not be available until the end of January, 1989. Please be patient and write the local/county Probate Court or Health Department in the meantime. No fees have yet been established by the Ohio Historical Society for copies.

Jeanne Pramaggiore, President
Ohio Genealogical Society

OUR TRANSPLANTED BUCKEYES - V

In addition to the 3000+ out-of-state members who belong to state OGS, all of the state chapters have a number of members who are former Ohioans or who have Ohio roots.

These "transplanted Buckeyes" would appreciate knowing when any kind of OGS meeting is to be held in their area. To that end, the following request is directed to all chapter newsletter editors and/or mailing committees:

Attention: All Newsletter Editors

The next time you run a set of labels for your newsletter, and if they are in zip code order, please make a second set of your out-of-state labels (zips: 00 to 42999; 46001 to 09-) and send them to OGS, P.O. Box 2625, Mansfield, OH 44906 marked to the attention of Dale C. Kellogg, VP.

We agree to use these labels only for the purpose indicated above, i.e. to inform the member of the time and place of any type of OGS meeting that is being called in the area. Thank you.

Newsletter Indexes

Each year we have questions about our newsletter index in the December issue. Let me attempt to clarify this for our readers.

It is recommended that newsletter pages be numbered consecutively throughout a year. For example, pages one through sixteen will comprise this January issue. The February issue will begin with page seventeen. This system allows an index to be made for a whole year, instead of each issue being done separately.

Each year is equal to a volume of a book. The indexer goes through each issue and indexes all names of genealogical interest from announcements, classified ads, queries, acquisitions, building fund, etc.

If you want to check to see if your query on a certain family name was in during the year, just look up that name, or your name, in the index in the December issue. Likewise, if you just found out another ancestors' name and want to see if someone else has been working on that name, use the indexes in all December issues that you have to check it out.

Perhaps you donated to the OGS Building Fund and can't remember when. Look up your own name. The page number following your name will tell you on what page of that year's issues you should look.

Your newsletters are hole-punched so that you can file them numerically in a loose-leaf notebook, making it easier to go back to find that certain page you need.

The index can easily be removed from the center of the December issue and placed at the end of each year or you can start a file or notebook with just indexes for the OGS Newsletter issues.

If you have any other comments or questions about The Ohio Genealogical Society Newsletter, please address them to the editor, Sunda Anderson Peters, P.O. Box 2625, Mansfield, OH 44906.

OGS Trip To Salt Lake City

There may still be time for you to join other OGS members on a research trip to SLC. It is scheduled February 26 to March 5, 1989. See page 179, OGS Newsletter, December 1988, for full details or call Phyllis Brown Miller at (513) 236-1722 for a reservation and details.

Computer Update

Due to work and family commitments, Woody Trautman was unable to update us this month. He sends his regrets. Look for his article next month.

"The Orphan Train Kids"

The December 1988 issue of Midwest Living contains an interesting article about adults living in the Midwest who were orphaned or abandoned as children in New York City and other East Coast cities. The orphan trains ran from 1854 to 1929, according to the article on pages 30-34.

You can probably find an issue of the magazine at your local public library or have them obtain it through inter-library loan.

PRESIDENT'S MESSAGE

The Board of Trustees met on January 28th at OGS Headquarters in Mansfield.

Two complimentary memberships were approved:

Tabi Culver, 15, of Wyandot County, was first place winner in Senior Division Genealogy for 4-H at the Ohio State Fair. Tabi won the Junior Fair Division last year and is the first person not only to win the award a second time but, also, consecutively. Her mother, Sue Culver, is President of Wyandot Chapter, OGS.

Nkenga Jackson, 13, of Franklin County, won first prize in a National History Day competition in Washington, D.C. last June. Her project traced the history of a school started by her paternal 4th great-uncle, who had been a slave. One of the longest, continuous black schools, Willow Hill has been in existence 114 years.

Nancy Applebee, Convention Chairman, reported that the convention is well in hand. Programs were in the January Newsletter. Everyone should find several choices from the wide variety of topics and we are looking forward to a large attendance. Why not make a copy of the program and give it to a friend?

The Board approved a periodical publications sale for the Convention so come prepared to pick up several items at 50% discount. The update to Ohio Cemeteries will go to the printer soon. This is an update of the book published by OGS in 1978. A new Chapter Directory is also ready for publishing. (Look for a pre-publication announcement in this newsletter.)

We were delighted to welcome Diane Gagel back - she has accepted the Publishing Committee Chair.

The Board approved a policy change regarding printing ancestor charts in The Report. In view of the fact that we can only print about 80 charts per year, with a membership of 6500 it is becoming increasingly difficult to accommodate those who would like to have their charts published. No ancestor charts will be published after 1989 in The Report and no more charts will be accepted. 1160 ancestor charts were published in "Ancestor Charts of Members of the Ohio Genealogical Society" and consideration will be given to publishing another book when a sufficient number of charts are received requesting publication.

Mark your calendars now for July 29th - the Leadership Seminar. Further information will be forthcoming in the Newsletter.

Jeanne Pramaggiore, President
Ohio Genealogical Society

Questions and Answers

Question: Where is Chicago Junction, Ohio? This place was listed in the 1900 Census in Huron County. Does it have another name now or did it disappear entirely? Does anyone know if the B & O or some other railroad ran through Chicago Junction?

Answer: On January 1, 1874, the Baltimore & Ohio Railroad Company opened up a portion of its Chicago extension, known as the Baltimore, Pittsburgh, and Chicago Railway, from Deshler, Ohio, to the junction with the Mansfield-Columbus Division of the B & O in New Haven Township, Huron County. This junction was called "Chicago" or "Chicago Junction", and a town developed quickly around it in the next few years. Chicago Junction was incorporated in the fall of 1882. The town was renamed Willard in this century, after Daniel Willard, President of the B & O Railroad. It is still a thriving city and boasts a historical society and museum which honors the B & O yards and freight station which built the city. A history was written about Willard some years ago by local attorney Joseph Dush.

Thanks, Tom Neel, OGS Office Manager, for answering this question.

COMPUTER INTEREST GROUP

R O U N D T A B L E

A. OUR COMPUTER SYSTEMS

Of those who have written or phoned about their interest in computers, most have had questions about what hardware and software they should obtain. And even computer users request help in understanding both the jargon and the regular technical terms. A similar situation occurs among attendees at the DataShare Computer Genealogy Support Group here in NWO. Some lose interest simply because of language!

A good way to learn a (foreign) language is to become immersed in it among willing helpers. Attend computer genealogy sessions locally and at the OGS Convention. Also participate in local clubs focussed on the computer you have or may like to obtain. And read the computer magazines written to your level (and there are many to chose from). Although in need of update, an article in the July 1988 OGS Newsletter may be of general help on resources.

Most equipment queries singled out the Commodore as current or desired. Those experts please help me with experiences or suggestions on such hardware and available genealogy software. Then I'll try to summarize in a later issue.

No-one can recommend hardware/software without knowing intended short and long term genealogy (and collateral) purposes. If these include eventual computer publishing, perhaps with images, the system should permit easy upgrades. If a wide variety of software is desired then the hardware operating system is important - in this case 'IBM-compatible' DOS. If wide support is desired through publications and clubs, both local and national, then select the popular software of interest and the required hardware. Refer to the above article for ideas.

Be assured that there are many using computers of virtually every make and a great variety of genealogy software, as well as just word-processor and database software. And they are getting the results they desire. There are others who now want to upgrade and find it awkward technically. Therefore, your plan is important. But also important is to get started or experience upgrading with a loaner or rental! Best wishes - and please share.

B. GETTING LOCAL DATA COMPUTERIZED

In various parts of the State, clusters of family historians are using their personal computers to put local cemetery, church, obits, courthouse records, etc onto disk. From this 'base' the output can lead to formatted reports for newsletters or chapter publications. But just as important, the disks MUST be SAVED and become part of the chapter and OGS statewide pools of related material for computer search by others.

These local clusters are now working independently, posssibly developing formats and procedures already in use elsewhere. OGS leadership would like to plan a statewide effort and is looking to the OGS-SIG for a plan. This must begin with knowing what is currently happening throughout the state, so please share with me what you now have on disk and your current and intended projects. I'd also be pleased for volunteers to work on a plan involving subject areas, gaps, technical matters and concerns about 'ownership' and fees.

C. 'HYPERTEXT' and 'STACKWARE'

In a very short time the Macintosh computer has popularized a very flexible database with exciting applications available to the average user. 'Hypertext' uses a 'stack' of 'hypercards' on which user information of any type is kept - text, images,etc. In addition, each hypercard can itself access numerous other hypercards. Imagine the application of this technology to genealogy.

In our family history endeavors consider our many piles of materials, including pictures, legal documents, charts, what-have-you. With hypertext links any item can have a pointer to any other item in its own or in any other pile! Great Aunt Ann's picture can immediately lead you to her siblings' families without going through ancestor and descendent charts. You get as much or as little related material as desired, and of any type. This is the concept of hypertext, and of course its computer implementation can be exciting.

There are several competitors to Apple of course, and implementations for PC-compatibles are also available. Some spreadsheets are '3-D' such that any cell in one can reference another spreadsheet, and so on through many layers. Furthermore, each cell of the spreadsheet can contain numerous pages of text, so here is a familiar mechanism (for some!) to build their own 'hyper-gene' (my term).

continued on page 22

Please contact me about your own interest and/or involvement in hypertext and any stackware which would be of interest to genealogists. I'll add your input to the specifics which I'll report later.

D. OGS-CIG CONVENTION ACTIVITIES APRIL 29

The OGS Convention April 29th near Cleveland will provide a real opportunity for persons of all levels of interest and involvement in using personal computers to share and learn. Our CIG program comprises a luncheon session Friday, late afternoon rap sessions, evening live modem session and a continuously staffed 'help' table in the exhibit hall. See the printed Convention program for details - but also be certain to attend and participate.

For a successful launch of our state-wide CIG activities at this Convention we still need volunteers NOW to report on local activities at the luncheon, to be resource persons at the 'Getting Started' and 'Using' rap sessions, and for 1-2 hour duty periods at the Help Table. Please contact me now!

Chapter Announcements

Putnam County Genealogical Society is preparing to order its 1989 3rd LIMITED EDITION Christmas Ornament. This year's Landmark Series Ornament will depict the Glandorf Church from the architectural drawing made in 1878 when the new church was dedicated. The church is listed on the Historical Register and is one of the first settlements in the county. The ornament will be gold in color. The cost per ornament will be $7.00, tax included, if picked up locally. Add $1.50 for postage and handling and 30 cents for a shiping box. Send check or money order with your order.

Ottawa County Genealogical Society, OGS, has available two hard-cover publications. The History of Ottawa County, Ohio, and Its Families is $45.00 plus $3.00 postage and handling. Ohio residents add $2.70 for taxes. Cemetery Inscriptions of Ottawa County, Ohio costs $15.00 plus $3.00 postage and handling. Tax for Ohio residents is $.90.

Chapter Announcements Continued

The Gallia County Chapter, OGS, has just reprinted 1819 Tax List. The cost is $2.50 plus $1.25 postage and 6% Ohio Sales Tax.

The Gallia County Chapter would like to inform members that it is very misleading to say that fire destroyed records of importance to genealogists in Gallia County. All deeds, marriages, births, deaths, wills, and estates are still intact. Two early common pleas volumes are gone, but there is no proof that it was due to fire.

Clermont County Genealogical Society, OGS, is sponsoring a day-long trip to The Ohio Historical Society Library and/or the State Library of Ohio in Columbus on Wednesday, May 3, 1989. A chartered bus will depart from Eastgate Mall (vicinity of State Route 74 entrance) about 6:30 a.m. and return to the same location about 7:30 p.m. The cost is $5.00 per person, round trip, payable with reservation. Members of other genealogical societies in the area are welcome to join the group. If requested, the bus will make a stop at I-71 and US Route 68 to pick up passengers. Call Barbara McCarthy at 831-5738 for reservations and details on obtaining an admission pass to OHS, if you don't have one. Lunch will be on your own.

Reminders

The deadline for First Families of Ohio applications is March 12, 1989, for presentation of awards at the 1989 OGS Convention. Mail applications to Dr. H. Ritter, OGS, P.O. Box 2625, Mansfield, OH 44906.

OGS Convention

Be sure to check last month's OGS Newsletter for the brochure for the 1989 OGS Convention. It will be held April 28-30 at the Independence Holiday Inn, 6001 Rockside Road, Independence, Ohio.

Nancy Appleby, Convention Chairman, has worked hard to provide a variety of subjects of interest to genealogists.

Those interested in computers and genealogy should also read Woody Trautman's article in this newsletter and volunteer your assistance, if possible.

Notes from Illinois

The Illinois State Historical Library, Old State Capitol, Springfield, IL 62701, cannot provide free genealogical research for non-Illinois residents.

The support organization, the Illinois State Historical Society, has contracted with individuals who, for a non-refundable fee, will attempt to locate an obituary, birth, or marriage announcement in Illinois newspapers; biographical sketch in county or state histories; and /or other family information in the Library's printed collections. Of course, you need to provide the name, and clues such as place, and exact or approximate dates.

Your request for any of the above types of information about one individual needs to be accompanied by a $5.00 check payable to the Illinois State Historical Society. If information is located, you will receive up to five pages of photoduplicated material. You will be notified if nothing is found.

For newspaper information, you should provide, at a minimum, the name, place, and probable date (month, day, and year) of the event. If you can provide the exact citation to an obituary (newspaper title, place of publication, date, page, and column number), the Library staff will be able to provide photocopies at 25 cents each (minimum $1.00). Also, if you have the exact citation to material from a book or periodical (author, title, date of publication, and page numbers), copies are 20 cents per page with a minimum of $1.00 plus postage and handling.

All of their newspapers are on microfilm and are available on interlibrary loan. See your local participating library for the availability and costs (postage and insurance) of this service.

Editorial Comments

Soon I will complete my fourth year of editing this newsletter. As editor, I have the priviledge of being first in line to read all of the in-coming chapter newsletters. I've discovered many of my cousins by reading many of these chapter newsletters. I would encourage all editors, temporary or permanent, to put their names on the front page of each edition. Yes, readers will know who to blame for the errors, but they will also know who to thank for the hard work.

Editorial Comments continued

Recently we have had a few letters asking us to remind married women to add their maiden names to their correspondence when genealogy is involved. You increase your chances of making contacts on your family lines that way, especially if you haven't done any research on your husband's lines yet.

Questions & Answers

Question: What type of response should a genealogist expect to receive from another researcher when sending information on a family name in response to a query?

Answer: The genealogist should receive a quick response from the researcher thanking him for the information. Whether the information is useful or not at the moment, it may fit in somewhere "down the line" and be very useful indeed.

Since postcards are less expensive, a researcher could consider keeping those on hand for quick notes to correspondents. Let others know that you really appreciate the time and effort that they have put into your family research efforts. Likewise, if you can contribute clues to another's research, drop them a line. Please be courteous to your possible relatives and friends.

Question: Does anyone have or know of the existance of a picture of Mary E. Bateson 1810-1852? She was the wife of Samuel Harris 1808-1888. If so, please write to Richard G. Boyd, P.O. Box 539, Mt. Morris, MI 48458.

Death Records Transition

Gary J. Arnold, Head or the Research ServicesDepartment of the Archives-Library Division of the Ohio Historical Society, has asked us to notify our members that they will be unable to handle requests involving the death records for the period from 1908-1936 until late February, at the earliest. They had duplicated approximately 400 of the 1,200 rolls of microfilm by the end of the first week in January. When all of the microfilm has been duplicated and they have received a copy of the index, researchers who visit the OHS Library in Columbus will have complete access to the microfilm and index. They will not be servicing the original death records.

They will have their own fees, but they have not been set, as of this time. If a researcher wants a certified copy, there will be the Library's fee plus the $7.00 certification fee. The Division of Vital Statistics will continue to handle certifying copies.

Genealogists should always send a SASE with their request. Please limit your inquiry to one name per request. No decision has been made regarding how much of the index will be searched in response to mail inquiries.

Mr. Arnold states that, at some point in time, the Ohio Historical Society will be selling copies of the index to interested libraries, but they will be the only research facility to possess a copy of the microfilm of the actual death records.

We will attempt to inform you when the transition is complete. Your understanding is appreciated.

PRESIDENT'S MESSAGE

The Ohio Historical Society now has the index to death records from 1908 to 1931 microfilmed and the death records from 1908 to 1922. They are now in the Reading Room and available to the public. It should not be much longer before all the death records are microfilmed. The indexes from 1923 to 1936 have not been received from the Department of Health yet and they do not know when they will be received.

The fee for uncertified copies of death records by mail will be $8.00 for non-members and $6.00 for members. If you request certified copies, there will be an additional $7.00 charge.

These records are available to the public and you can do your own research. The only fee if you look up the records yourself will be $.25 for the microfilm copy. They are also available at the county level.

You should have received your ballots for the upcoming election. Remember, they must be in OGS Headquarters by April 19th - if mailed - and April 22nd - if hand-carried. Be sure to vote! Fifteen District Trustees will be elected this year. This increases the number of District Trustees but reduces the size of the district giving each chapter better representation on the Board of Trustees. If there are no nominees from your District, why not look around and recommend someone.

The Ohio Association of Historical Societies & Museums prepared and presented to the state legislature, a program by which state funding could be used to assist the projects of local historical organizations. If you would like information on how the grants would be selected, call Trella Romine, President of OAHSM, (419) 845-2141, or Richard Francaviglia (614) 297-2341.

The Board of Trustees will meet on March 18th, a week early because of Easter.

Jeanne Pramaggiore, President
Ohio Genealogical Society

OUR TRANSPLANTED BUCKEYES - VII

February was a banner month for out-of-state Buckeyes with Ohio roots. On the 8th of the month, a Colorado group held their first meeting, elected temporary officers, a newsletter editor and a bylaws committee! A second meeting was scheduled for mid-March. Temporary President is Leonard D. Moulder, 6511 Saulsbury Court, Arvada, CO 80003. He will be happy to hear from all interested Colorado genealogists.

Then, on February 18, the Florida Chapter, O.G.S. held their 5th Annual Conference in Orlando. Sixty-eight members and guests heard Thomas A. Burke of the Ohio State Auditor's Office give educational and inspirational talks on research in Ohio's land surveys and land records.

The "Browsing Room" between lunch and the afternoon session proved a popular place where Ohio books and newsletters kept the copy machine busy, according to Chapter President Claire Heatherington. The 6th Conference will be held on the third Saturday of February, 1990. Floridians, mark your calendars!

COMPUTER INTEREST GROUP

ROUNDTABLE

A. CIG CONVENTION REMINDER

This may be the last chance I'll have to encourage you to attend the OGS Annual Convention in Independence Ohio. Our statewide Computer Interest Group will host four activities on Friday April 28. Visit the 'help' table in the exhibit area, chat 'on-line' at the GEnie session after dinner, participate in informal 'rap' sessions in late afternoon between the formal program and dinner, and help initiate our year's activities at our own CIG luncheon (be sure to sign up).

The luncheon will feature Barbara Clawson, Chairman of the National Genealogical Society Computer Interest Group, a genealogist and computer/telecommunications consultant. Against a national backdrop she will guide our discussion on potentially helpful and challenging OGS computer genealogy activities. Our own members will report on activities in their own areas, technically and geographically. See you there!

B. THE COMMODORE COMPUTER LINE

Topics raised by persons contacting me relate to getting started, vocabulary and technology, specific computer systems and advanced topics. This column cannot pose as expert or offer recommendations but it will try to pass along inputs from readers and suggest sources, approaches or 'new' ideas. As general reference (though in need of update) this column in the July 1988 issue may be helpful.

The Commodore 64 and 128 command a lot of interest, perhaps for their long track record and very appealing prices. They have their own (non-MSDOS) operating system (opsys) and both can add the inexpensive GEOS graphics opsys supplement which enhances user activity. They support Family Tree software.

Commodore offers two more powerful computers, each with its own (different) opsys. The Colt is 'IBM-compatible' and so can be expected to run all MSDOS genealogy programs. The Amiga is a powerful '32-bit' computer which has many features for the experienced computer user. A different Family Tree software is available.

To determine what is best for you, consider (in addition to price!), the software and hardware capabilities you desire PLUS the possibility of wanting to change either software or hardware without undue difficulty of transferring genealogy data.

Many find that their initial system continues to satisfy their needs. But if not, migration within and from the Commodore line (as with some other lines) can be difficult - but minimal with the Colt. Add-ons to bridge to other opsys may be available, but be sure you understand their performance. And be certain to check the several good Commodore line magazines, clubs and outlets.

C. MORE ON HYPERTEXT

The February column introduced the concept of HyperText with the suggestion that it can be a 'made-to-order' technique for genealogists. A California reader mentioned 'stackware' for his MAC and in particular 'Hyper Family-Tree' ($50) which creates family group sheets and pedigrees.

Also, there is good press on a new HyperText Wordprocessor called Black Magic by Ntergaid in Fairfield CT (203-368-0632). This runs on MSDOS and requires a good graphics card. It supports Note Links for secondary information, Reference Links for expansion branching, Replacement Links for compression and DOS Links for incorporation of external programs.

Ntergaid operates a 'HyperBoard' at 203-366-5698 for exchange of HyperText documents. They also incorporate archival compression (ARC) to minimize file size, and they also supply the 'de-ARC' program. Computer genealogists - be on the lookout for additional pertinent applications of HyperText!

Please let me know of your interest and involvements in HyperText, and also in other advanced topics.

Mail Ads Halted

According to an article in The Beacon Journal, an Akron, Ohio, newspaper, dated January 20, 1989, Halbert's Inc. of Bath Township, a subsidiary of Numa Co. Ltd. of Akron, has agreed to stop advertising two of its books. The two books are The New World Family Album and Complete Registry and Immigrants and Their New World Descendants.

Cleveland postal inspector Michael Sitter reported that mail solicitations for the genealogy books made it appear as though they were about a specific person's family name or immigrant roots.

The books contain general information about ancestral names and a list of names and addresses of people who share the same last name as the buyer.

Victor Wlaszyn, president of the Better Business Bureau of Akron was quoted in the article as saying, "If you're looking for genealogy and a true representation of your roots, this is not the place to look for it.

Thanks, Summit County Chapter, OGS, for sending this article.

National Genealogical Society Challenges Current Application of Copyright Law

I urge members to read pages 1-4 of the NGS Newsletter, Volume 15, Number 1, January-February 1989. The article is, "NGS Challenges Current Application of Copyright Law". Please read and consider the ramifications of this issue and respond as you see is necessary. I do not have space in this newsletter to thoroughly examine the subject here.

Canadian Postage

Joyce Hughes, Scarborough, Ontario, Canada, has a good point that we genealogists need to consider. Postage from the United States to Canada is now 30 cents for the first ounce. Also, it does no good to send SASE to recipients in Canada with US postage affixed, because Canada, being a foreign country, has its own postage stamps. A good idea would be to enclose loose US stamps which could be used by the Canadian resident when he wanted to send a SASE to someone in the US.

PRESIDENT'S MESSAGE

At the Board Meeting on March 18th, we approved a balanced budget for 1989-1990 and also approved the use of the Great Hall and the two front rooms for meetings, receptions, etc. The use of these rooms is free to Chapters. Why not take a trip to Mansfield, visit the library, and use these rooms for your meetings.

We are delighted to welcome Hocking County as a Chapter of OGS. They will receive their charter - along with Sandusky Kinhunters, Richland-Shelby, and Vinton County - at the OGS Convention April 28 and 29, 1989, in Independence, Ohio.

Over 200 applications have been approved for First Families of Ohio.

Did you know that we have over 1,850 Bible records in the OGS Library? There are over 14,000 index cards with over 60,000 names. Have you checked them?

The Leadership Seminar will be held July 29, 1989, at the Delaware Joint Vocational School in Delaware, Ohio. Please try to have at least four attend from your Chapter to attend each of four sessions each hour. All past, present and future officers are invited.

In our last Newsletter, our Editor, Sunda Peters, called your attention to an article in the NGS Newsletter, Jan.-Feb. 1989 issue, concerning changes in the Copyright Law. The Register of Copyrights is rejecting applications for indexes to out-of-print books and public records and are now starting to reject applications for compilations of census transcriptions, cemetery inscriptions, etc. This obviously is going to hurt historians and genealogists because if anyone can copy your work, you are not going to put the time and effort into it. If you write to Mr. Ralph Omans, Register of Copyrights, Library of Congress, Washington, D.C. 20559; Senator Hollings, Chairman, Senate Commerce Committee, 125 Russell Bldg., Washington, D.C. 20510; your Senators and Representatives, send a copy to NGS, Attention: Executive Director, 4527 17th Street, Arlington, VA 22207-2363. NGS will be testifying before Congress regarding this, and the more help the better. If you have had problems getting works copyrighted, give them the details.

Jeanne Pramaggiore, President
Ohio Genealogical Society

Welcome Colorado!

The third out-of-state OGS Chapter, Colorado, should receive its charter at the OGS Convention this month! The new chapter's constitution provides for alternate evening and afternoon meetings, and it is planned to hold future meetings in Estes Park and Longmont. President Leonard D. Moulder will be glad to hear from other Colorado Buckeyes. He may be reached at 303-424-9333.

When OGS Past President, Julie Overton, spoke in Sacramento, California last month, nearly 150 were in the audience. A sign-up sheet was circulated to ascertain interest in forming a Northern California OGS chapter. The sheet came back with 45 signatures! Based on our

Editorial Comments

If you have Canadian ancestors (and even if your don't) you may find some helpful information in the Gagnon Room at the Central Library of the City of Montreal, Canada. Daniel Oliver, Chief of the Department, would like you to be aware of the genealogical collections of this specialized department. The address and phone number is as follows: Salle Gagnon, Bibliotheque centrale, 1 210; rue Sherbrooke est, Montreal (Quebec) H2L 1L9, (514) 872-1631. If you are near Montreal this summer, why not stop in and check out their research collections and facilities. Tell them OGS sent you.

Another matter that has been brought to our attention is the need for the location of binderies that will do small jobs for individuals, rather than just large jobs, such as a monthly minimum for libraries or schools. If you know of a bindery that will repair one or two books at a time, please let me know. If the list is small, we'll publish it in the newsletter. If it gets large, we'll keep the list on file at headquarters so that you can call for the location of a bindery in your area.

COMPUTER INTEREST GROUP

ROUNDTABLE

A. LAST CIG CONVENTION REMINDER

In just a few days we will be able to chat face-to-face about our mutual interests in the combination of computers and genealogy. Come to share your successes and questions, projects in which you participate or know about which computerize local genealogy materials. We also need your suggestions of activities for our CIG to undertake. See you there!!

B. GENEALOGY SOFTWARE

One reader, Evelyn Shaver of Harrison OH, reminded me that FAMILY ROOTS ran on her Commodore and stated how very pleased she was with it and with the help available from the company, Quinsept. Also, Jim Herzberg of Toledo had good use of FAMILY TREE ORGANIZER for his Atari. There are many useful genealogy shareware and buyable programs for many different kinds of hardware - in fact too many to reference or compare.

However, I wanted to comment on the four most popular, which also have national support groups, electronic bulletin boards and supplemental literature. These are PERSONAL ANCESTRAL FILE, FAMILY ROOTS, ROOTS III and FAMILY RESEARCH MANAGER. But in an initial check on hardware I not only found a great variety current but also others in development. So a modest summary is not possible and I refer the interested reader to the authors (or their literature). They all run on MS-DOS and variously on Apple and MAC, and others such as CP/M and Commodore. Refer to this column in the July 1988 issue for contact data.

C. SCANNERS

In the October issue this column suggested a technology focus on imaging and gave illustrations from several readers of including computer photos on family group sheets. With no premise of being comprehensive or even totally accurate I'll follow-up by indicating several scanners which may prove helpful in your genealogy activities. At least, these remarks may start a train of thought to prove useful later, perhaps in a different context.

Our basic interest is to get images (photos, documents, drawings ...) into the computer memory for later incorporation into our printed outputs. Several commercial genealogy programs are able to store and manipulate images. Wordprocessor and desktop publishing programs can include images in their output, formatted as the user wishes.

Equipment-wise, a video camera with auxiliary units would work, and might be the best approach when the source material is already on video tape (eg scenes from a family reunion). But a fixed tabletop scanner with material laid on it as on a copier is the preference for a variety of materials. This has the additional advantage of OCR software (optical character reader) to convert text directly into wordprocessor format. This would be the approach to get published genealogy material (chapter newsletters and booklets) into the computer for fast and varied searching.

Many libraries and computer centers have tabletop scanners available for use under appropriate arrangements. For a purchase, the following have come to my attention - use them only to start your inquiry, not as recommendations. Chinon (Torrance CA: 800-441-0222) connects directly to your PC, has OCR, grey scale and resolution adequate for desktop publishing, and with a simple add-in card can double as a fax.

Check out Thunderscan and those described and listed in a feature article of the March 1989 issue of 'Personal Computing' magazine.

The next category of scanner is hand-held, making a four inch wide strip at about one inch per second. Output can be either electronic and direct to the computer (for immediate viewing and editing) or paper (via built-in printer and therefore useful for library work). Example equipments for electronic output are DFI (Sacremento CA: 916-373-1234 or East Brunswick NJ: 201-390-2815) and The Complete PC (Milpitas CA: 800-634-5558). Both units adjust to different quality materials and input to popular software programs. The latter offers two strip widths, two and four inch, and can combine two passes of the latter electronically to give a full page.

Radio Shack offers a unit with paper output (see one at your local store). The RS unit functions as a 'copier' for simple tasks or where no regular page copier is available. Member Norma Mears of Dayton reports good use of hers.

D. 'ASK ME' PROJECT

The NWO DataShare Computer Interest Group has offered to chair a joint project with OGS-CIG focussed on providing a state-wide roster of resource persons on a variety of hardware and software. Watch for a questionnaire for you to complete and return to Diane Gagel in Perrysburg describing your system and the components on which you would respond to questions by mail or phone. Such a project is functioning successfully elsewhere and should be able to provide us here in Ohio a way to help each other.

E. OFFERINGS

One of our members, Joseph Wood of Raytown MO, has sent a disk with program (MS-DOS) to prepare OGS 3x5 cards continuously from data already in your computer. Bring a blank diskette to the Convention and get a copy.

Another has developed a list of minimum data elements to describe the genealogical holdings of a church, useful in doing a study of area churches for later collation with similar studies elsewhere. Contact Michael Clegg at the Allen Co. Lib., Fort Wayne, IN. This is a start toward deciding on 'minimum data sets' for all computerization projects. Please send me copies of your formats in whatever field.

PRESIDENT'S MESSAGE

Over 550 people attended the convention in Independence, Ohio, which was also the 30th Anniversary of The Ohio Genealogical Society. At least 50% of the registrants had never attended an OGS convention before, which reinforces our need to move around the state. I think I speak for all of them when I say it was a most enjoyable, memorable convention. It began with a bus trip to Western Reserve Historical Society Library and ended with a "double-decker" bus tour of Cleveland, including Lakeview Cemetery and President Garfield's Tomb. On Friday and Saturday, the program, the facilities, the food, and the exhibits were highly complimented - people not only learned a lot but had such a good time they plan to attend next year.

On behalf of all the attendees, I would like to thank Nancy Applebee, Chairman of the Convention, and all her committee for an outstanding convention. It was so well organized and ran so smoothly, the "untold" hours spent in preparation were not evident - and I am sure they were numerous. Many thanks, Nancy.

Five new Chapters received their charters - including another out-of-state Chapter - Colorado. Welcome to The Ohio Genealogical Society.

Two-hundred and two First Families of Ohio applications were approved and nearly one-hundred were present to receive their certificates and pins.

Florence Main submitted her resignation from the Board of Trustees and it was accepted with deep regret. Florence spent many years building our fine library collection which was sincerely appreciated and we all wish her well.

Sunda Peters, Newsletter Editor, was appointed to complete Florence's term. Sunda will be an asset to the Board of Trustees.

We also welcome the fifteen District Trustees who were re-elected or newly elected. J. Richard Abell, Mary Jane Henney, and David M. Keck were elected Trustees-at-Large.

My apologies to our very able Tour Chairman, Phyllis Miller, for omitting her from my report. After a most successful tour to Washington, D.C., (a bus full), and a smaller tour to Salt Lake City, plus another tour to Washington in the works for this fall, she certainly deserved recognition. I do apologize, Phyllis.

I checked with the Attorney General's Office to be sure genealogical raffles were legal. I have been assured that those organizations with non-profit status under 501 (c) (3) are the only organizations that can run a "game of chance" in the State of Ohio.

OUR TRANSPLANTED BUCKEYES - IX

Nearly fifty of the more than 500 registrants at the 30th OGS Convention were from out-of-state, including Bonnie J. Morris, President of the Southern California Chapter.

And at the First Families of Ohio dinner, nine of the 202 newly-inducted members were "transplanted buckeyes" present to receive their pins.

LIBRARY NOTES

We recently discovered that the OGS Library had no issues of The American Genealogist (T.A.G.) in their collection. The magazine was founded in 1922 by Donald Lines Jacobus as the New Haven Genealogical Magazine, and assumed the current title in 1937. It is a "standard" genealogical reference source in all quality libraries. Do any members have back issues 1922 to 1988 that they could donate to the OGS collection, or offer at a reasonable price?

OUR TRANSPLANTED BUCKEYES - IX Continued

The late evening session for out-of-staters heard Bonnie Morris describe the latest project of her chapter: compiling a bibliography of books on genealogy and local history to be found in the public libraries of southern California. To this list will be added books that are held by chapter members and other private groups.

Joining the Florida and Southern California chapters is Colorado, and in mid-May, the Sacramento group organized a northern California chapter. Interest is now turning toward the Chicago area where a meeting is being planned.

At the invitation of the Michigan Genealogical Council, OGS will be taking part in the Annual Seminar to be held at Novi, Michigan September 28-30, 1989. OGS participation will be threefold: a program on sources for Ohio research will be given by Jana Broglin, Diane Gagel and Michael Clegg; Jeanne Pramaggiore, OGS President will speak at the Saturday luncheon; and Michigan registrants interested in forming an OGS chapter will meet with Dale Kellogg that afternoon. In addition, there will be an OGS sales table manned by Thomas Neel, OGS Office Manager.

The Colorado Chapter Newsletter has been received. The Editor, Julia M. Kasch, will be happy to see other chapter newsletters. Send them to her at 3790 W. Chimayo Road, Littleton, CO 80123.

CONVENTION AWARD WINNERS

Phyllis Leech, OGS Fellow Committee Chairman, presented the Jane Roush McCafferty Award of Excellence at the OGS Convention to Audrey Gilbert of West Alexandria, Ohio, for her extensive publications concerning Preble County. Mrs. Gilbert, who is head of the Archives at the West Alexandria Public Library, has published all Preble County census records 1860-1910, newspaper abstracts, and is currently working on tax and land records. The award is a surprise, and Mrs. Gilbert had not registered this year for the convention, so OGS President, Jeanne Pramaggiore, will present a plaque in person to Audrey at the Preble Co. Chapter meeting, June 20th. Please join us in congratulating her for her work in the publishing field. She joins Jana Broglin (education) and Florence Main (library) who received the award at previous OGS Conventions.

Jana Broglin, Education Committee Chairman, for the Ohio Genealogical Society, announced the winners of the OGS Student Essay Contest at the OGS Convention. Hope Hunter, of Albany, Ohio, winner of the Junior Division (ages 9-13), will be a 4th grader at Albany Elementary. She is active in Girl Scouts, cheerleading, and she enjoys camping. Hope, age 10, accepted her $200 award in person for her essay, "My Family Tree". The winner of the Senior Division ($400), was Christian Scott, of Gallipolis, Ohio, a 16 year old Sophomore at Gallia Academy High School. Christian is accomplished in music, science, sports; likes to travel; and is very active in track and field. His essay on his ancestor, Jefferson Scott, a slave of John Hockaday in Halifax Co., NC, will appear in its entirety in a forthcoming issue of The Report. These youth are to be complimented on their accomplishment in the study of their ancestors.

Computer Interest Group

R O U N D T A B L E
Convention Re-Cap

A - MOUNTING INTEREST IN COMPUTERS

Even with an increase in the number of computer activities this year attendance at each of the five numbered 80-100!. Many persons were first-time computer users or beginning to exploit use of their computers for genealogy. Some brought programs to share and others had blank diskettes for copies (but we really weren't set up for this service -- plan for next year). And of course many were now seasoned users and had much to share.

Everyone completed an Information Sheet to provide the CIG with a good basis to plan the coming year's activities and next year's Convention.

CIG objectives focus on 'computerize', 'communicate' and 'utilize'. In helping each other and OGS to define and implement corresponding activities or projects on a statewide basis we will also be increasing the effectiveness of our own systems for our personal pursuits.

Let us encourage and help our Societies publish newsletters and books on computer - and save the diskettes!! Let us prepare our own family data on computer to share and our queries in 'Tiny Tafel' format for automatic searching. Let us work out a sharing mechanism via a diskette bank and via electronic bulletin boards. And let us share our experiences with incorporating such computer genealogy material into our own family history research.

Those who couldn't attend the Convention are of course invited to be part of the continuing CIG action too. If you haven't filled out an Information Sheet please let me know what you are doing and/or your suggestions.

B - THE 'COMPUTER' SESSIONS

For the computer genealogy enthusiast there were two regular lecture sessions conducted by Leland Meitzler (Orting WA) and Barbara Clawson (Alexandria VA), the CIG luncheon key-noted by Barbara Clawson, and an on-line GEnie session keyed by Jana Broglin (Swanton OH).

Wide participation occurred in a comprehensive Rap session moderated by Woody Trautman (Toledo OH) with separate groups led by Diane Gagel (Perrysburg OH), Karmen Hatchette (Fairborn OH), Kay Hudson (Mansfield OH) and Bob Strock (Dalton OH). Our thanks to all these contributors!

The topics of Meitzler and Clawson provided helpful tutorials on the roles of the computer as tool. They were: 'Manual vs Computer Genealogy: Organizing of Data for Both' and 'Computers as an Aid to Genealogists: Addressing Some of the Problems of Those who Already Have Computers'. Summaries will appear in future articles.

The wide range of computer experiences and needs challenges session presenters. Hallway comments on each of the sessions included 'superb - gave needed guidance' and 'couldn't understand anything, even though the presentation was clear'. Until we have the possibility of parallel sessions at different levels the 'matching' must take place via Q&A and informally.

Also, several persons suggested pre and post Convention workshops (for a nominal fee to cover computer rental). Let me know your thoughts on session topics and workshops because planning for such must begin now.

C - MODEMS

Conversation in two groups of the Rap Session and attendance at the Modem Session evidenced a mounting interest in computer communications via modem. Many are actively accessing bulletin boards and networks, many others have modems they wish to activate and others have questions about getting started.

Two factors are important: a) local phone numbers and access charges and b) available and pertinent computerized information. Encouraging data were shared on both and will be summarized in a future article (see also July 1988). A local computer store should also provide helpful data.

Computer Interest Group
continued

The audience participated in the on-line Modem Session by posing questions for other GEnie Roundtable participants scattered across the country. The spontaneity of such queries in turning up leads or answers proved fascinating to newcomers to this technique.

But there was even more interest in accessing the material on the GEnie Bulletin Board and in its library - material that others had worked up (perhaps on their lines) and 'uploaded' for us to 'download' into our own computers.

We should also remember that more and more Ohio local data is being computerized and will become available for sharing. The differences in computers can be sidestepped by transferring files via a local bulletin board.

'Computerize' - 'Communicate' - 'Utilize'

PRESIDENT'S MESSAGE

At the May meeting, the following appointments were approved for District Trustee: Cleveland, Shelvey Madama; Columbus, William Havens; Marysville, Robert Hamilton; and Wapakoneta, William Hilty. They join those District Trustees who were elected: Robert Andrews, Dayton; Judy Bishara, Youngstown; Jana Broglin, Defiance; Arline Dowds, Mansfield; Rebecca Hill, Bowling Green; Teresa Klaiber, McConnelsville; Helen Rhoten, Chillicothe; Barbara Rutledge, Athens, Timothy Smith, Cadiz; and Robert Strock, Coshocton. We welcome them to the Board of Trustees.

Switzerland will mark the 700th Anniversary of the establishment of their constitution on August 1, 1991, and have developed a program called "Valaisans of the World Project". The program is aimed at reuniting descendants of the Swiss emigres with their Swiss cousins. In August, 1989, they will have national press releases and appearances on the morning network news programs, at which time Swiss descendants will be instructed where to write for additional information. Our participation has been requested and we have accepted.

The National Archives have manufactures schedules for the years 1929 and 1935, which are arranged by state, thereunder by industry classification number, open and available for research. These records contain information on manufacturing plants submitted to the Bureau of Census. For additional information, you can contact the Civil Reference Branch (Suitland, MD).

I would like to request that Chapters send their newsletters to their District Trustee. And don't forget our transplanted Buckeyes, our out-of-state Chapters would like your newsletters, also.

Would those chapters who have not returned the form requesting the names and addresses of their officers, please do so as soon as possible.

Jeanne Pramaggiore, President
Ohio Genealogical Society

OUR TRANSPLANTED BUCKEYES - X

At the Fifth Annual Conference of the Florida Chapter - OGS in February, Buddy Brokaw was presented with a plaque in appreciation of her dedicated service as Chapter President and as Editor of The Quest, the Chapter's newsletter.

New editor of The Quest is Elmer Spear (3809 Esplanade Court, Tampa, FL 33624-4756). He is willing to publish notices of books for sale by OGS chapters on Ohio sources and records. He is also anxious to exchange newsletters with other OGS chapters.

More than 200 people signed in at the Southern California Chapter's table at the recent Southern California Genealogical Jamboree, some from as far away as Sacramento and Phoenix!

The Buckeye Californian, the Chapter's newsletter, carried a fine chart of Ohio courts showing federal, state and local jurisdictions. Although it used northwest Ohio as an example, the general plan would apply throughout Ohio. Carol A. Hotzinger edits the newsletter.

OUR TRANSPLANTED BUCKEYES Continued

Organization of an OGS chapter in the Valley of the Sun (the Phoenix, AZ area) is now a distinct possibility, with three OGS members laying plans for an initial meeting. Both Chicago and Seattle are receiving attention as places where chapter formation is very possible.

The new Colorado Chapter, OGS now boasts more than fifty members. Next activity will be a picnic on Thursday, July 20, at the City Park in Estes Park about 65 miles northwest of Denver on U.S. Routes 34 and 36. All traveling and transplanted Buckeyes will be welcome. Call President Len Moulder at (303) 424-9333 for details.

ATTENTION: ALL CHAPTERS

NEW BLUE BOOKS WILL BE ISSUED AT LEADERSHIP CONFERENCE *

The newly revised Blue Books* to which each chapter is entitled will receive their first showing at the 4th OGS Leadership Conference, Saturday, July 29, 1989, at the Delaware County Joint Vocational School. Registration will begin at 9:00 a.m. with the Delaware County Chapter again in charge.

Plan now to send several of your past, present or future officers or committee chairs to receive your chapter's Blue Book, and to take part in the discussion as fresh ideas for successful chapter operation are presented.

As last year, sixteen topics will be explored, four at a time in four sessions. There will be another potluck dinner at noon with the Licking County Chapter handling the affair. Participants should bring a dish to share and their own table service.

REMEMBER THE DATE: SATURDAY, JULY 29!

Questions & Answers

Question: Are McClung and McClurg one and the same family? Are Brumback and Brumbaugh the same family?

Answer: It is quite likely that the two names are the same family, in each case. Your job is to prove that they are or are not by gathering all of the information that you can on each person with that name in a particular area. Gather census records, births, deaths, marriages, land records, tombstone inscriptions, etc.

McClung and McClurg, when written in cursive, as in the old land books, look very much alike. Watch for records like administrations where witnesses and executors were named.

See if you can get the book by Gaius Marcus Brumbaugh on the Brumback and Brumbaugh families through you local library on interlibrary loan. Also, see the announcement on The Memorial Foundation of the Germanna Colonies, Inc. in this newsletter. Good luck.

Germanna Colonies Reunion

The annual reunion of The Memorial Foundation of the Germanna Colonies In Virginia, Inc. will be held July 15 and 16, 1989, This will be the 32nd meeting. The first pioneers were: Brumback, Coons (Koontz), Fishback, Hager, Hitt, Holtzclaw, Hoffman (Huffman), Kemper, Martin, Rector, Spilman, Utterback, and Weaver. They were from Nassau-Siegen, Germany in 1714. For specifics on the reunion, write the Foundation at Box 693, Culpepper, VA 22701 and include a SASE.

COMPUTER INTEREST GROUP

J U N E R O U N D T A B L E - 1

Ohio G S Convention RAP Session Summary

During the RAP session everyone contributed to the discussion in one of four groups, moderated by the following persons, who at the conclusion shared findings with the entire body. The following is based on their notes.

A - BEGINNER - Diane Gagel, Leader

Most of the participants already had a computer, chiefly IBM compatibles. One couple was considering upgrading its Commodore to the MS-DOS Colt model. PAF was discussed extensively, and Diane passed around her PAF notebook to show the extensive options available. A few of the participants had recently purchased PAF but had not used it extensively. (A next task is to reread all of the documentation!)

Some questioned what the more expensive programs offered that PAF did not. Diane answered that the major cost differential occurs because of the subsidy by the LDS church and that functionality may be similar. Programs differ in their provision of research tools, transferring of data to and from other programs and in the integration of wordprocessing. Each of these functions can be important and the user should become very familiar with their implementations, in PAF as well as in other programs of interest.

B - SOFTWARE - Karmen Hatchett, Leader

The majority of the good-sized group did not presently own any genealogy software. The ones who did had the following: PAF, My Roots, Roots II/III, Family Roots, Family History System, G-Crab and self-written. The group discussed the difference between licensed software, shareware and public domain software and what the programs would do. Good performance does not depend on the category, and for exploratory or learning purposes the inexpensive software may suffice. But then make a rational choice and stay with it!

One person would name a desirable function (such as user-defined searches and wall charts) and users of various software programs would indicate whether this could be performed. Many were unsure what functions their programs would and would not do. Reread the pertinent documentation and experiment!

The group discussed individual problems posed by members and many good solutions were offered by other members. Linking printer control of text attributes to the wordprocessor program can be troublesome. If the documentation or vendors don't help try someone who already has a solution! Data transport between programs requires similarly defined fields and a link, such as via a BBS. A brief discussion ensued on utilities for downloading these, public domain or shareware programs from BBS's. Karmen had a few on disk and made them available to copy.

C - HARDWARE - Kay Hudson / Sunda Peters, Leaders

Discussion began by sharing experiences with the variety of hardware used by members. After having selected a computer, interest turns to peripheral equipment such as fast printers and modems. The major suggestion of the group was to buy the fastest Hayes compatible modem for telecommunications that one could afford. This will save on-line charges. (But also consider the increased connect-charge for higher baud rates.) Also, there are several good programs to automatically access BBS's scan and download preselected files, and go off-line. Prior planning is essential but certainly saves connect-time.

Both GEnie and CompuServe have genealogy offerings. Also, "Genealogical Computing" magazine (c/o Ancestry Inc, 350 S 400 East, Suite 110, Salt Lake City, UT 84111) has published a list alphabetically by state of all the (other) BBS's which deal with genealogy, and those which are linked together. Both Cleveland and Akron (and probably other Ohio cities) have local public service networks, which are good for 'practice'. The Cleveland BBS number is 216-368-3888.

D - ADVANCED - Bob Strock, Leader

There is a very wide difference in the capacity and power of the computing equipment being used by members, ranging from a Commodore 64 to an AT class '286'. Even the small computers were being used for genealogy and indexing programs. Some were using wordprocessor and/or database programs and others the newest genealogy programs, which of course have the advantage of linking generations. As for printers, NLQ (near letter quality) was recommended except for drafts. There is a need for user education from the rank beginner seeking guidance to get started, through the self-taught to the advanced trying to exploit new technology.

Questions & Answers

Question: Franklin County, Ohio, was created in the year 1803. Why are there no Federal Census Records for the years 1810 and 1820?

Answer: During the War of 1812, the British burned Washington, and the 1810 Census Records were almost completely destroyed. Washington County, Ohio's record survived. Tom Neel reports that 1810 Killbuck Township, Ashland County Census list is in Knapp's History of Ashland County. He also reports that the 1820 Census for Franklin and Wood Counties were "lost". A good substitute does exist, though. Try Early Ohio Tax Records by Powell, Index to Ohio Tax Lists 1800-1810 by Jackson and others, Ohio 1810 Tax Duplicate by Petty, and Ohio 1812 Tax Duplicate by Petty. Check with your area genealogical library or ask about an inter-library loan.

CIG June Roundtable continued

Most questions related to the amount of memory (RAM) and storage (disk) needed for genealogy. As with any tool, skill and sophistication of use lead to increasing expectations and requirements. Except for smaller introductory systems, a RAM of 512 KB and disk of 20 MB represent minimums, with double these values being more useful. Also, an increasing amount of software useful to genealogists resides in RAM (TSR or Terminate and Stay Resident), thereby further increasing the minimum RAM to 1-2 MB. Examples of such software are notepads, help, some manuals, multitasking and some genealogy.

COMPUTER INTEREST GROUP

J U N E R O U N D T A B L E - 2

National G S Convention:
'Computer Learning Center'

A - OVERVIEW

This was my first national genealogy convention and so I was fascinated to meet and hear 'famous' genealogists from other parts of the country. The other great attraction was of course the Computer Learning Center, which offered formal and informal hands-on activities throughout the four days and evenings. I am glad I went to St Paul and recommend attendance at Washington DC next June 6-9. May I also encourage membership in the NGS/CIG (includes its useful newsletter); address 4527 17th St, Arlington VA 22207-2399; voice 703-525-0050 and BBS 703-528-2612.

St Paul certainly illustrated the following: Interest in computers among us genealogists has reached a very high level, witness standing room only in all computer sessions, with attendance reaching the many hundreds. Half had almost or had just begun using a computer and had numerous valid beginner questions. Others of course wanted to increase the sophistication of use of their computer as tool in their own genealogy activities. Education is primary, requires small stratified groups, integration with genealogy problems and hands-on practice with popular hardware and software without offending others. This is certainly a worthwhile but difficult task in a society convention setting.

The challenge is to assist the new and expanding group in such a way that computers become natural tools and not a separate discipline. Some new vocabulary is desirable, as in any field (recall first meeting ahnentafel, soundex, register system, etc?!). New terms are generally learned through experience, communication or introductory courses. But technical expertise is not necessary for profitable use of a computer in one's genealogy activities. Rather than trying to master computers and then applying them to genealogy, go the other way around: from a personal genealogy problem situation explore what and how computer tools can help.

Much credit for stressing this approach and implementing it in society activities goes to Barbara Clawson, NGS/CIG Chair (and our featured speaker at OGS), and to George Archer, Manager of the Computer Learning Center at the NGS Convention (both volunteers of course!).

B - FACILITIES

One large room was fitted out as a laboratory with at least a dozen MS-DOS computers for workshop classes on three separate topics: dBase, WordPerfect and their combination. No software or hardware could be endorsed or was even implied, but popular products were selected for discussion and training. The courses were fully subscribed during the first week of preregistration and demonstrated how just about any database or/and wordprocessor could serve as tools for genealogy. Several MAC's and modem were added, and for the next three days the lab was used informally for individual practice with a variety of software, including the leading genealogy programs.

Any vendor was welcome to demo his product, including PAF (both MS-DOS and MAC), RootsIII, Family Roots and Norgen (Amiga). A large number of demo/seminars on computer genealogy took place 'mornin, noon and night' in the lab and in an adjoining classroom. These rooms also were places to meet and rap and were well appreciated by the great numbers of newcomers.

One situation that arose in attempting to provide computer and projection facilities for demonstration of 'any' software concerned the variety of diskette formats. In the 'IBM-compatible world' both 5 1/4" and 3 1/2" have high and low density formats, to yield respectively, 1.2 MB & 360 KB and 1,44 MB & 720 KB. Some computers handle all four formats but others do fewer, and so format is essential to specify in furnishing or requesting a diskette. An added potential hurdle is that some MS-DOS computers will not read diskettes formatted on IBM PS/2; a solution might be to copy from the PS/2 diskette onto one formatted on an MS-DOS computer.

C - TOPICS

National leaders provided several survey and in-depth demo/instruction seminars in the use of their product/service: Blake Rosenvall on PAF, Steve Vorenberg on Family Roots, Howard Nurse on RootsIII, Mel Mogree on GEnie and Dick Eastman on CompuServe. Indexing was well covered by Nettie Schreiner-Yantis (SKY) and Brian Harney (IXM). George Archer demo'd the dual-merge capability of WordPerfect which gives it some database possibilities, and the use of a database for surname research. Other products and information were available at Exhibit booths.

CIG June Roundtable 2 (NGS)

The statesman of computer genealogy, Paul Andereck, gave the keynote address at the CIG luncheon entitled, "Computers in Genealogy: Yesterday, Today and Tomorrow". He traced an interesting history, beginning with the 1890 census requirement for 'automation' and the consequent invention of the Hollerith or punched card! His main thrust, and current personal interest, was the exploitation of video tape for personal history research and documentation. He uses a camcorder in lieu of a still camera because of its capacity for panning, zooming, action and sound - in cemeteries and archives as well as at family reunions. Pertinent images can of course be abstracted for later publication. Great Possibilities.

PRESIDENT'S MESSAGE

The Board of Trustees was well represented at the National Genealogical Conference in St. Paul; the Vice Chairman, the Vice President, three trustees and myself. Tom Neel had a table for OGS and several other Ohioans were there. It was a very successful conference and attendance far exceeded their expectations. National's conference next year will be held June 6-9, 1990 in Arlington, Virginia.

The Michigan Genealogical Council will hold a seminar September 28-30, 1989, at the Novi Hilton, Novi, Michigan, and OGS will be present.

Next year is the 200th Anniversary of the Census. The United States was the first country to start and continue a census every ten years. Great Britain didn't get started until 1821. Next year is also another census year. After you complete the census forms, why don't you make a xerox copy for your files before you send it back in. The 1990 census will not be made public until 2062.

There is another article in the Newsletter regarding the tour to Washington, D.C., in September. Read it and get your reservations in.

Last call for the Leadership Seminar July 29th at the Delaware Joint Vocational School. Bring a "potluck" dish and your table service. See you there.

Jeanne Pramaggiore, President
Ohio Genealogical Society

OUR TRANSPLANTED BUCKEYES - XI

Northern California will likely be the next new OGS chapter. After a successful first meeting in May, plans are going forward for a second meeting on Saturday, October 7, at the Southgate branch of the Sacramento Public Library, 6132 66th Ave., at 10:30 a.m.

Reports from the Bylaws and Nominating Committees will be acted upon in the business session, and after a potluck lunch, an afternoon session will be devoted to an informal exchange on Ohio families being researched.

More than 100 people have expressed interest in the group for whom a newsletter is being prepared. Their address is P.O. Box 221056, Sacramento, CA 95822-8056.

President, Len Moulder, will be able to give practical advice on Ohio research to his Colorado Chapter membership following the trip he and his wife, Bette, made to Ohio this spring. They visited relatives and pursued Ohio roots in Lorain, Huron, Summit and Stark Counties with some success.

The Quest, newsletter of the Florida Chapter, carried in its Spring issue quite a list of Ohio books for sale, and another list of Ohio county books for sale by chapters. All OGS chapters are urged to send their publication lists to The Quest, 3809 Esplanade Court, Tampa, FL 33624-4756. Deadline for the Fall issue is September 15th.

Questions & Answers

Question: There is a town in Mercer County called Zenz City. Apparently it is also called Sharpesburg. For whom was Zenz City named and when. Why two names? The post office in 1964 was Fort Recovery.

Answer: Thanks to Tom Neel for his assistance in looking up an answer for this one. We could not locate it in the 1837 or 1882 Gazetteer. According to the Atlas of Mercer County published by J. E. Hamburger and Company, Celina, Ohio, 1900, page 79, "A couple that have won the friendship and esteem of their neighbors and accumulated a goodly store of this world's riches are: George and Barbara Zenz, residing at Sharpsburg, Mercer County." The couple had come from Lorain County in 1867. They first farmed, but soon Barbara decided to start a country store, which grew rapidly in prosperity. She was a shrewd business woman and soon owned farms and other real estate in the area. In 1895 they divided the properties, giving sons George, Peter, and John land in 1895. Sometime after the atlas was published, it became Zenz City, no doubt because of all of the Zenz family living there. I can't explain the use of two names for one place. Can anyone else?

Question: How can copies of photographs on the photocopy machine be improved?

Answer: Nancy Foster has supplied us with information for which we need to credit two sources. The suggestion came from the Mesquite, Texas, and Boulder Genealogical Societies and The Genealogical Record, published quarterly by the Houston Genealogical Forum, P.O. Box 271469, Houston, TX 77277-1469 by way of the Illinois State Genealogical Society Newsletter, Vol. 10, Number 2, February 1989, page 14. They suggest using a copy-screen, available in 65 and 85 line sizes for approximately $3.25 at larger art supply stores. "Use of the screen (under the photo being copied) creates a dot matrix image and produces a copy with better detail and contrast balances," they report. Thanks to all of the above sources for this suggestion.

Question: In what county was Richlandtown in 1815?

Answer: We haven't found an answer yet. Can anyone else help us answer this one?

Questions & Answers

Question: What can I use to replace the lost 1820 Franklin County Census?

Answer: According to The Franklintonian, Vol. XVII, No. 6, June 1989, page 111, you should use the Franklin County Tax List for the year 1821. It covers the year 1820. Even though incomplete, covering only those persons paying tax on land, it is still helpful. It is a ten page list copied by Carol W. Bell. It is available at the State Library of Ohio in the Franklin County Genealogical Section. It is also available at the Franklin County Genealogical Society Library in the Time Section.

OUR TRANSPLANTED BUCKEYES - XII

In 1989, as in 1988, nearly half of the 6000+ members of OGS live outside of Ohio. California, which will soon have two chapters, leads with 385 OGS members. Illinois is second with 216, and tied for third place are Indiana and Michigan with 194 each. Florida - 192, and Colorado - 71 already have chapters.
Members of OGS are found in every state of the union. Others with large OGS memberships which could well be the nuclei for future OGS chapters are: Texas - 111, Washington - 104, Arizona - 87 and Missouri - 74. In combination VA-DC-MD have 144 OGS members, and New England has 66. The possibilities are exciting to contemplate.

At the 1989 Seminar of the Michigan Genealogical Council (September 28-30, Novi Hilton) OGS members will contribute a panel on "Researching in Ohio". On Saturday afternoon a session is scheduled on forming an OGS Michigan chapter.

This column has appeared regularly for the past year, and we would like the opinion of our transplanted and native Buckeyes as to whether it should be continued. Send your reaction to the Editor at P.O. Box 2625, Mansfield, OH 44906.

STANDING RULES OF THE OHIO GENEALOGICAL SOCIETY

The following Standing Rules were approved by the Board of Trustees. Please add these to your current Standing Rules.

3. The Board of Trustees minutes shall carry the names of Trustees present and absent.
4. Elected Trustees must notify the Chairman of the Board if they will be unable to attend a regular meeting of the Board.

5. Three consecutive absences from Board of Trustees meetings by an elected trustee would require the following action. After the third consecutive absence, the corresponding secretary will write the absent member and ask his/her intentions, and suggest that if he/she is unable to attend Board meetings, that he/she submit a letter of resignation to the Chairman of the Board.

6. Replacements for District Trustees will be recommended to the Board of Trustees by the Chapters in the District affected. A replacement will be chosen from OGS members of the affected District and who must belong to a chapter within said District. The Board of Trustees will appoint a replacement to fill the position for the unexpired term as provided in the Bylaws.

RECORDS SET AT 4TH LEADERSHIP SEMINAR

A new record was set on July 29, 1989 with 123 attendees representing 38 chapters for the 4th OGS Leadership Conference. If dual memberships were taken into account, almost exactly half of the OGS chapters were represented.
Delaware with 10, Montgomery and Huron with 8, and Licking with 6 led in chapter attendance. Close behind were Lorain, Miami Valley, Richland and Richland-Shelby with 5 attendees each.
The sixteen topics were well received with the attendance at each varying from 20 to 40. The evaluation sheets are being reviewed to determine how the seminar can be made even better.

Delaware and Licking County Chapters were the hosts, Delaware for registration and morning refreshments, and Licking overseeing the sumptuous potluck dinner at noon. These chapters are to be congratulated for their part in making the seminar a success. Next year it is hoped that other chapters can become involved in the mechanics.
Our sympathies are extended to two scheduled speakers whose misfortunes prevented their attendance: Jeanne Pramaggiore and Carol Bell. We hope for their speedy recovery.

Notes from the Editor

Happy 100th Birthday to John King! John will be 100 on August 7. The Licking Countian of Newark, Ohio, has honored him and the community will celebrate with him.

John's great grandfather built the house in which John was born in rural Newark. Jim King also built Mary Ann Furnace and the Olde Mill in Utica.

John's kind face is a familiar one from my childhood, so I wish him a wonderful 100th!

On another topic that is near and dear to my heart, I would like to ask each of you to consider research exchanges.

We will put these exchanges in the newsletter, just as we do the queries sent. The following is an example:

> Will research in The Ohio Genealogical Society Library in exchange for research in Fairbury County, NE, Courthouse or newspapers.

One can get much research done less expensively this way and make new friends in the process. Won't you consider it?

Maine Research

When John E. Frost, Ph. D., of Eliot, ME, retired in 1982 from the librarianship of New York University, he soon revised for the Maine Historical Society his popular monograph, Maine Genealogy: A Bibliographical Guide (2nd ed., 1985) About that time, he undertook the massive project of abstracting and indexing all personal names appearing in the records of the York County (ME) Probate Court for the full colonial period. Having now completed his task, Dr. Frost has recently given copies of this outstanding work in microform to several libraries, including those of the Maine Historical Society, the New Hampshire Historical Society, and the New England Historic Genealogical Society, as well as to the Maine State Library, Augusta, and the Family History Library, Salt Lake City. Ten fiche are sufficient to present all probate records of the years 1687 to 1800 for this, a county that once included all of Maine. It is likely that this new resource may prove to be of primary importance to all who in the future may be researching the histories of Northern New England families.

The notice above was submitted to us by the Maine Genealogical Society.

Allen County Cemeteries

Members of the Allen County Chapter, OGS, have offered to look up the names of your Allen County ancestors in the cemetery books at the Allen County Historical Society, according to Bill Hilty. He reports that eighty percent of the cemeteries have been read.

To save time, I suggest that you write a brief paragraph with the ancestor's name, township of residence, and birth, marriage, and death information that is known. Include a Self Addressed Stamped Envelope for any information to be returned to you. You could even mail them a postcard in an envelope. Write your known info very briefly on the postcard and leave blanks for them to fill in the desired cemetery information.

PRESIDENT'S MESSAGE

After an unexpected extension of my vacation (and definitely an unwanted one), I am now home feeling much better and getting my feet wet again. I want to thank each of you for the get-well cards. I was overwhelmed and do appreciate your thinking of me.

I have received several complaints about Chapter correspondence. At the NGS Conference in St. Paul, I was told that chapters are not replying to letters. (One individual wrote to three - no results; another wrote three letters to one Chapter asking a simple question - they dropped their membership).

The Corresponding Secretary's position is probably one of the most important (an often most unrecognized) positions on your Board. Chapter correspondence is an introduction of your Chapter to a potential member or potential donation.

Prepare a list of items easily checked (census indexes, cemetery inscriptions, etc.) - xerox pertinent data, and return with a list of researchers in your area. OR, prepare a form letter stating you do not do research and enclose a list of researchers Always add a disclaimer on these letters stating that your Chapter is not responsible for the results of research done by any of the researchers AND always enclose a Chapter brochure.

While this may appear to apply to Chapter correspondence, we as genealogists should also remember to answer every letter enclosing an SASE. You could be replying to a long lost cousin.

Jeanne Pramaggiore, President
Ohio Genealogical Society

OUR TRANSPLANTED BUCKEYES

"The 'Transplanted Buckeye' in Northern California is finally beginning to bloom!". That is the message in the preliminary newsletter, Norcal News, of the Northern California Chapter, OGS. More than 110 people expressed an interest in the formation of the chapter following the initial May 13 meeting. These and all other interested parties are now urged to attend the second "organizational" meeting.

This meeting will be held SATURDAY, OCTOBER 7 at SOUTHGATE LIBRARY, 6132 66th Ave. (66th Ave. & Florin Mall Drive), SACRAMENTO, CALIFORNIA from 10:00 a.m. to 2:00 p.m. There will be a potluck lunch, and a speaker. If possible, Mr. Joseph Samora, of the California State Archives, will present a short video-taped portrayal of plans for the proposed new Archives Building.

By the time this is read, the proposed Arizona Chapter will have held its first meeting. Scheduled for Sunday, September 24, the group met at the Recreation Center of Friendship Village in Tempe. Robert and Margaret Conner, both past presidents of the Ohio Genealogical Society, were hosts. Over 100 invitations to this meeting were sent to OGS members and to other Arizona genealogists who belong to an OGS chapter in Ohio. The agenda for this meeting (and also for the NORCAL meeting above) included adoption of proposed bylaws, election of temporary officers and making arrangements for future meetings and programs.

We hope to give the results of these two meetings in our next column, and, in addition, be able to announce scheduled meetings in

President's Message

The Board of Trustees met on September 16th. Susan McKenzie has resigned as our part-time secretary. She was an asset to OGS and we regret her leaving, but wish her well in her new position.

Mr. Winton Arnold has also resigned as Trustee. He was Chairman of Buildings and Grounds and kept our Headquarters in very good shape. His resignation was accepted with regret and thanks for the tremendous job he has done for OGS. Mr. James Strong of Alliance was nominated to fill his position as Trustee and his nomination was passed unanimously.

Mary Bowman, Chairman of the 1880 Census Index, will be returning to school in January to obtain her doctorate. We would like to see the index completed before she returns to school. Let's put an extra effort into completing what we have and get it to Mary -- before the holidays.

Nancy Applebee has been appointed Chairman of the Personnel Committee. Her experience as a mother plus her working and educational background make her an excellent choice. Thanks, Nancy!

Election time is here and a call for nominations appears elsewhere in this Newsletter. Please get your nominations in and when you receive your ballot - VOTE!

Membership renewals will be out soon, if you have not already received them. Why not complete it and return it before the holidays so it doesn't get lost in the rush.

Jeanne Pramaggiore, President
Ohio Genealogical Society

New Standing Rule

A new Standing Rule was adopted September 16, 1989: "An operating and procedures manual for Headquarters, library, and personnel (volunteer and salaried) shall be maintained by the Board and the policies and procedures in the manual can be changed only by Board action."

Query Update

OGS Members - Because a large number of queries are received each month, it is necessary to limit members to one query per year.

An attempt is always made to get as many queries published as possible in the monthly newsletter. In order to accomplish this, please limit the length of your query by being concise and using as few words as possible. It is suggested that you aim for less than 50 words.

In order to save each of you postage and money, send your queries in on a 3x5 index card or U.S. postal card. Please send only one (1) query per card at a time. If you see your query published, you can then forward another query and it will be published as space permits, usually in November or December. Remember, we can only promise to publish one a year!

Here's hoping you get the information you request in each and every query.

Mary Anschutz, Query Editor

Our Transplanted Buckeyes

A fresh wind is blowing Ohio Buckeye seeds across the land from Michigan to Arizona! In Tempe on Sunday, September 24, an enthusiastic group met to organize the Arizona Chapter, OGS. Caryn Shoemaker of Gilbert was acting chairman. A By-laws Committee was named and a slate of permanent officers was prepared.

The election of officers and adoption of by-laws will be on the agenda for the next meeting on Sunday, November 12 at 2:00 p.m. in the Recreation Center of Friendship Village, 2625 East Southern Avenue (between Dobson Road and Price Road) in Tempe.

It is planned for the new chapter to hold five meetings per year in odd-numbered months, except July. A newsletter is being prepared by two volunteer editors. Congratulations, Arizona Chapter!

At week's end Saturday, September 30, the fall seminar of the Michigan Genealogical Council concluded with a session on forming an OGS chapter for "transplanted Buckeyes". Susan L. Mitchell of Westland was chosen temporary chairman, a By-law Committee was named, and Becky Davis of Farmington Hills volunteered to edit the newsletter.

The next meeting will be held on Saturday, November 11, with the place to be announced in a letter to all 200 OGS members in Michigan and others with Ohio roots. Good luck, Michigan!

Executive Vice President

Marie Dodd Floyd suggested Arthur Ball, 980 Wilmington Avenue, Apt. 704, Dayton, OH 45420.

You may want to copy these names and addresses into your genealogical address book for future reference. We thank the members above for taking the time to help us with this issue. We certainly do appreciate your assistance!

The Board of Trustees of The Ohio Genealogical Society is proud to announce the appointment of Anne Dallas Budd, prominent genealogical author and lecturer, as its Executive Director.

Anne Budd is a graduate of Ashland University with a degree in Business Administration and holds a Masters in Library Science from Kent State University. She presently serves on the President's Advisory Council at Ashland University. For the past fifteen years she has served on the faculty of the Institute of Genealogy and Historical Research, Samford University, Birmingham, Alabama, and has taught Beginning and Advanced Genealogy in the Continuing Education program at Purdue University, Fort Wayne, Indiana.

Since 1986, Anne has been employed by the Allen County Public Library Foundation, Fort Wayne, as PERSI Project Supervisor, which is the publication of the Periodical Source Index, 1847-1985, Volumes 1-4.

Among many other honors, Anne is a Fellow of The Ohio Genealogical Society, and has received the Award of Merit and the Distinguished Service Award from the National Genealogical Society.

Anne plans to return to Mansfield to live and will begin her duties with The Ohio Genealogical Society around the first of December.

In the thirty years of its existence, the Society has had a phenomenal growth. By 1979 the organization had 2,800 members and today, 6,377 members are scattered over all 50 states and 7 or 8 foreign countries. The Library now contains more than 10,000 volumes in its collection. With the acquisition of a new headquarters and library in the historic Bushnell House in Mansfield, Ohio, the Society is entering into a new era of growth and prosperity.

We welcome you, Anne.

Robert A. Cunning, Chairman
Board of Trustees, O.G.S.

Anne Budd, O.G.S. Executive Director.

President's Message

Our November Board meeting was moved up to October 21st and Bob Cunning, Chairman of the Board, has an article which explains the reason why. We feel very fortunate to have Anne Budd as Executive Director.

I also received some "feedback" concerning my message about Chapter correspondence. Some Chapters were offended because they do a fantastic job at answering correspondence, and to them I apologize. I should have said "some" Chapters do not answer their correspondence, not all of them. I am glad my messages are being read.

The Board approved the 1991 OGS Convention in Toledo and the 1992 OGS Convention at Kings Island. They also approved a table for the NGS Conference in June, 1990.

We are delighted to welcome Lynn Arnold to the Board. Lynn is the District Trustee for the Cincinnati District. Teri Klaiber resigned as Cemetery Chairman; she is District Trustee for the Zanesville District.

Editor's Notes

Several months ago, OGS member Agnes McVeigh Brooks, of Norman, Oklahoma, asked us to remind our members how important it is to find a place for their genealogical collections before they pass away. She reminded us that so many times our valued material is pitched, goes up at auction, or is stuck in a closet by a disinterested spouse. After so much time and money is invested in our work, we want to make sure that it is cared for after we are gone.

I was reminded of her suggestion recently as I watched the news following the October 17 earthquake in San Francisco. One man was in tears because his fifteen years' worth of work on his genealogy had disappeared along with his apartment building. I'm sure that we can all empathize with him.

Tom Neel has offered the following suggestions:

1. Affix a page with your will packet detailing who gets what item.

2. If you give the material to a library or archives, have it in files alphabetically by family, and weed out duplicate materials and worthless items, so that it is worthwhile for the library to accept the collection.

3. Check with your family, immediate and extended, to see which ones will really want the material and will utilize it.

4. Give some money with the collection to provide for care and purchase of files and cabinets.

On another matter, it has been suggested that chapters and individuals need to have at least the following items on the title page of their publications: the author or editor, the publication date, and the title of the publication. Additional items would be to have the address where the publication can be purchased and the current cost of the publication. This allows the librarian to catalog your publication more easily and may aide in selling more of your works. Please add the name of the state along with the name of the county or township to your publication. There are so many Washington and Richland Counties in the United States. It is certainly confusing to cataloguers if the state is missing.

Pennsylvania Archives Update

Francis T. Berry I of Swissvale, PA, has written to inform us that there has been a change in plans and the Pennsylvania Archives will continue to be open during regular hours, 8:30 - 4:45, Monday through Friday. We had reported in an earlier issue that they would be closed for renovation until January. Now you can plan an earlier trip to Harrisburg.

Special Announcements

The Stark County District Library will sponsor their Sixth Annual Genealogy Workshop on December 2, 1989. The program will run from 9:45 a.m. to 4:00 p.m. with a lunch break from 12:00 - 1:30 p.m. You may "brown bag" in the Auditorium of the library at 715 Market Avenue, North, Canton, Ohio 44702-1080.

Nationally known author and lecturer, James Dent Walker will present "How to Use the National Archives, Military Service Records, and Veterans' Benefit Records". Registration is $10.00. Write immediately to register as no phone registration will be accepted.

Suggestions

John Hutchins, a volunteer at the New England Historic Genealogical Society, has sent us the following information based on his experience. If you want to receive a prompt and courteous reply from your correspondents, remember the following:

1. Remember, you are asking a FAVOR of a VOLUNTEER.
2. Keep the question and the entire letter short and to the point. Ask only ONE question.
3. Give as much meaningful data as you can about the person or place involved. Include approximate dates, names of kids or spouse and places. Don't forget your own address.
4. Remember you're asking for time, copies and perhaps travel. Send along a meaningful donation, since this information has value to you.
5. Be patient. Several people may be working on your problem and haven't given up. However, letters do get lost so a polite followup is eventually in order.
6. Send a SASE - Self Addressed Stamped Envelope.

Mr. Hutchins sends along his thanks to the many volunteers who have helped him out.

Computer Interest Group Note 1

1990 CONVENTION SESSIONS ON COMPUTER TOOLS FOR GENEALOGISTS

Planning is well underway for a repeat of the well-received computer program of the 1989 Convention - plus - a series of four regular sessions for non-experts - plus plus - an extra day of hands-on workshop. So save the dates of Friday/Saturday, April 27/28, plus the possibility of a workshop day on Thursday or Sunday.

Karen Hatchett serves as overall coordinator of the CIG Convention program. She still has flexibility and your suggestions are welcome; and if you will help with preparations and/or implementation, please let us know now! Write to Karen at 4134 W. Enon Rd., Fairborn, OH 45324, phone (513) 767-9249.

Our annual CIG luncheon on Thursday will again feature popular Barbara Clawson, chair of the NGS CIG. She will focus on the ways to use computers to enhance the quality/ scholarship of one's genealogy research. Also, we will get an update on efforts to computerize local materials around the state, and affirm the leadership cadre of CIG for the coming year.

Our Friday afternoon RAP session will carry into its third year, this time is six groups, on a topic of your choice. Everyone contributes successes, problems/questions and solutions. Tentative topics are: BEGINNERS, PAF, ROOTS3, FAMILY ROOTS, WP/DB, EQUIPMENTS, ADVANCED ... (alternate topics? format suggestions?).

A repeat of the hands-on modem session will again occur after dinner Friday. This year will focus on actual techniques for accessing electronic bulletin boards, discovering files of interest and then actually downloading them, and also uploading messages and contributed files. As opportunity permits, the Tafel Matching System will be illustrated. Carol Montrose, an experienced and enthusiastic BBS user, heads this session and would appreciate suggestions and offers of help: Box 84, Reynoldsburg, OH 43068, phone (614) 855-2688.

This year, the CIG has been asked to organize four regular sessions for the relative newcomer on the use of computers for genealogy. The general theme is "Computer Literacy: Tool for Genealogists." Tentative topics are: "Essential Computer Services in Libraries", "Getting Started and/or Upgrading One's Own Computer System", "Integrated Use of Software Tools for Genealogy Research" and "Generating and Using Local Computerized Materials." Please let us know your aspirations, frustrations and fears so we can finalize the topics. And, of course, we would be pleased for suggestions of speakers!

A new CIG activity in planning is a day of extra-fee, hands-on, software workshops, either Thursday or Sunday depending on availability of computers and space. Topics, format and scheduling can become rather involved, so we may need to opt for a simple beginning. One suggestion is one popular program for word processor, one for database and one for genealogy, with 1-2 hour class and 1-2 hour hands-on for each topic of choice. Emphasis could be on beginners with applications for genealogy research. Depending on interest and availability of resources, separate classes could have other emphasis. It is important to hear from potential attendees!

See you at the Columbus Airport Radisson the last of next April!!

Woody Trautman, CIG Chair, 2625 Middlesex, Toledo, OH 43606, phone (419) 535-7436, fax (419) 531-6439

Questions & Answers

Answer: Regarding Question on page 135 of the September issue of this newsletter: the Ohio Volunteer Infantry, Co. K, 159th Regiment was located at Camp Bradford, which was a processing center in Baltimore. This information comes from Encyclopedia of Historic Forts. The main purpose of the 159th was guard duty. According to Norman L. Jones, the 159th saw little or no action as they suffered no casualties. They were ordered home on August 13th and mustered out August 24, 1864. They lost 10 enlisted men to disease during their service. For further information, see Official Roster of the Soldiers of the State of Ohio in the War of the Rebellion, 1861-1866, Ohio in the War: Her Statesmen, Her Generals, and Solidiers, Volume II, and Official Roster of the Soldiers of the State of Ohio in the War of the Rebellion, 1861-1866, Vol. IX.

President's Message

As 1989 draws to a close, we look forward to 1990 with anticipation and excitement. Your Calendar of Events went out with your membership renewals. Be sure to check it and mark your calendars. While you are at it, check to be sure you sent in your membership renewal.

I am happy to report that we have received more letters complimenting chapters on their correspondence than otherwise. Congratulations, chapters, and keep up the good work.

I am also happy to report that Mary Bowman received completed 1880 Censuses and promises of more to come soon. Thanks, and please do get them to Mary.

A very Merry Christmas and Happy New Year to all of you.

Jeanne Pramaggiore, President
Ohio Genealogical Society

Editor's Notes

When I make an error in this newsletter, it's multiplied by 6,000, so I try not to make them. When I'm sitting here in Ohio composing sentences and paragraphs of information for you to read three or four weeks later, sometimes a problem of interpretation arises. When we can't meet face to face and discuss your interpretation of the message I sent, it can create misunderstandings, such as the note on queries in the October issue. I thank those people who wrote to let me know their concerns about queries.

Stephen H. Waters of Federal Way, WA, comments that "queries are the life blood of a genealogy society". I agree with him. Before I became Editor, the queries were the first thing I read when the newsletter arrived. As I pick up the mail, I read all queries before I take them to the Query Editor. I now correspond with cousins in IN, IL, MI, TX, WA, and CA, as well as OH, because of the query section.

We want you to send in queries. We want them on postcards, index cards or on 3x5 pieces of paper for ease of filing and proofreading. We promise each member at least one query per year, more if space permits.

Everyone who has sent us a query in 1989, up to around Thanksgiving, has had at least one query printed. Those received after Thanksgiving will be used in the order received and will go into the 1990 issues.

R. Jay Williamson of Ross, CA is concerned about the use of acquisition listings by out-of-state members. Members who are "out of traveling range" of Mansfield can use the acquisitions, too, by writing to OGS Headquarters and having a volunteer check the indexes of acquisitioned books for the ancestor you are seeking. You can have the appropriate

Homeless Tombstones

Recently, we received a letter from Bonnie Knox of the Genealogy Department of the Wayne County Public Library in Wooster, OH. She wrote that the Wayne County Sheriff's Department had put an article in the newspaper seeking someone to identify six tombstones found shortly after Halloween. She went to the station, took information from the stones, consulted five books written by five genealogy chapters in five different counties and finally identified the stones as belonging in Knox County. The proper authorities were contacted to have the stones replaced on the proper graves. Just last week, the same

Executive Director's Message

The OGS is more than just its publications, just its library, or just its chapters. It is an organization of people who have a common interest in working for the betterment of genealogical research in general and the advancement of The Society in particular.

A new year and a new decade provide opportunities for setting goals. An Executive Director has been hired to assist OGS in researching its goals, but it is you, its members, who will determine the ultimate success of The Society. Your time, energies, ideas, and concerns are actively solicited.

I welcome an opportunity to address your chapters at their monthly meetings to discuss "The OGS and YOU: 1990 and Beyond". Please feel free to contact me at headquarters to schedule this program.

Anne Budd, Executive Director

Homeless Tombstones Continued

thing happened, so she is working on it again. She was informed that this problem goes on all year long, not just at Halloween. She would like OGS chapters to let their village, city, and county officials know that they can be of assistance in such cases. She has been doing her part. Now, can anyone help her locate the grave of a _ _ re Kent, a Civil War Soldier? She believes it may be the tombstone of Empire Kent, of the 54th Regiment OVI, who served from Auglaize County. Her local VA says there is no central registry in Ohio for placing these markers, so it remains a puzzle. Chapters, members, can you help Bonnie?

One gentleman called in regard to Editor's Notes on p. 161 in the November issue. In his case, the family did not follow the instructions in the will packet for what to do with the genealogy. Tom Neel points out that only bequests made in a will or in a signed codicil are legally binding.

PROPOSED CHANGES TO THE BYLAWS OF

THE OHIO GENEALOGICAL SOCIETY

The following proposed changes to the Bylaws have been reviewed by The Board of Trustees in accordance with Article XII, Section 1 of the current Bylaws. These changes are recommended by the Board of Trustees.

Notice is hereby given to the general membership that the following proposed changes to the Bylaws will be on the 1990 ballot. (Related changes in the Standing Rules will be considered by the Board of Trustees in accordance with Article XII, Section 3 and 4, after the results of your vote is known). Proposed Bylaw changes are shown in **BOLD** type.

Article III Membership

Section 3. **E. Institutional membership, whether paid or complimentary, shall receive The Newsletter and The Report.**

Rationale: Institutional membership is a new category of membership and allows the institution to receive the publications, but not a ballot.

Article VI Board of Trustees

Section 1. The Board of Trustees shall be the governing body of the Society and shall consist of the President, the Vice President, the Recording Secretary, the Corresponding Secretary, the Treasurer, fifteen (15) elected District Trustees, nine (9) Trustees elected at large, and ex-officio members: The Immediate Past President, and Immediate Past Chairman of the Board, and all Past Presidents and Past Chairmen of the Board who were elected prior to 1986. **All members of the Board must remain active and in good standing.**

Rationale: The term ex-officio gives those members the right to attend and vote on matters at the meeting, but ex-officio members are not required to do so, and are not counted in the quorum. Further, all members of the Board must be dues-paying members and are expected to attend regular meetings of the Board of Trustees.

Article VIII

Section 3. **The members in each District shall elect a District Trustee who is a member of The Ohio Genealogical Society and resides within the District, and who shall serve as a liaison between the elected officers of the Society, the Board of Trustees, the Chapters, and members at large.**

Rationale: A District Trustee should live within the district represented to have first-hand knowledge of the needs of the Chapters. That person should have enough interest in The Ohio Genealogical Society to be an active member in good standing in order to serve on the Board of Trustees.

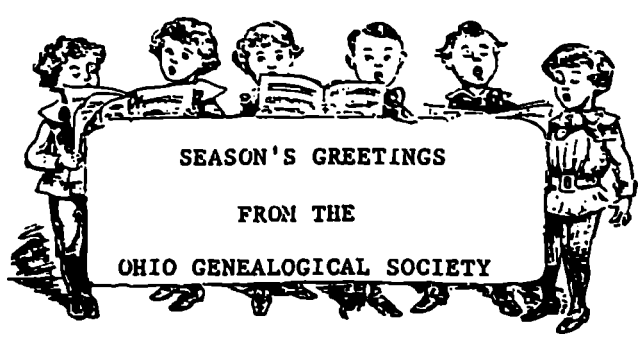
Robert A. Cunning
Chairman, Board of Trustees
The Ohio Genealogical Society

Chapter Officers' Notice

The 1989 OGS Chapter Directory has been completely sold out. It was printed prior to the convention this year, after each chapter was asked to submit information on its library, meeting arrangements, publications, and anything else they thought useful.

Because we have added several chapters since the 1989 edition and because many chapters have excellent new publications to their credit, we would like to put out a 1990 edition, rather than reprint the 1989 one.

We need the chapter officers to check their chapter's information in the pink 1989 edition. Then send any additions or corrections to Sunda Peters at OGS Headquarters. Also, if there are no additions or corrections, send a postcard to that effect, please.



The Ohio Genealogical Society bears no responsibility for products or services listed in the ads. For details on how to submit an ad, send SASE to: OGS Newsletter Classified, P.O. Box 2625, Mansfield, OH 44906.

ARIZONA - January 14 - Proposed bylaws will be on the agenda when this new chapter meets in Scottsdale at 2:00 p.m. on Sunday, January 14, according to President Caryn Shoemaker. The program will be an "Ohio Resource Fair" with VP Linda Starr as Day Chair. Call her at (602) 840-1658 for meeting place, or write the chapter (with SASE at 6744 E. Broadway Rd., Box C-7, Mesa, AZ 85206).

COLORADO - February 15 - The chapter will be guests of Paul Simmons of Arvada on Thursday at 1:15 p.m. It will be a workshop using Paul's unique library as a source. Write the chapter for exact address at 6511 Saulsbury Ct., Arvada, CO 80003. Their newsletter editor, Julia Kasch, was in Cincinnati in October to receive a plaque for twelve ancestors proven for First Families of Hamilton County, Ohio. Most of them were there by 1796!

FLORIDA - February 17 - Tacy A. Arledge, CGRS, of New Holland, Ohio will be the guest speaker for the 6th Annual Conference of the Florida Chapter at the Quality Inn (U.S. Highway 98N) in Lakeland, FL on Saturday, February 17. Tacy, a qualified Ohio researcher with 65 proven ancestors in First Families of Ohio, will present four subjects during the all-day meeting commencing at 8:30 a.m. There will also be a browsing room with ancestor charts, surname/county log book, newsletters from 79 OGS chapters and other Ohio research materials. All visitors to the Sunshine State will be welcome.

MD-DC-VA - February 20 - The third meeting of the National Capital Buckeye Chapter will be held in Virginia at a place to be announced in the next OGS Newsletter. In November, the chapter was formally organized with the adoption of bylaws and election of officers. A quarterly newsletter will be published in 1990 and four meetings are set: two in Virginia and two in Maryland. Of the more than thirty charter members, two-thirds are state OGS members, many with FFO affiliation. Current information can be obtained from the chapter's organizer and first president, James W. Reep, 3511 55th Aenue, Hyattsville, MD 20784-1007.

NORCAL - February 24 - The Northern California Chapter will meet at the Pacific Lutheran Theological Seminary "high in the Berkley Hills" according to the organizer and President pro-tem, John L. Krieg. Bylaws were adopted in October and officers nominated (to be elected February 24). The chapter already has 24 state OGS members with six FFO members. For details call Krieg at (916) 428-6502 or write the chapter (with SASE) at P.O. Box 221056, Sacramento, CA 95822-8056.

Box 5057, Los Alamitos, CA 90721-5057 for program, time and location of the meeting of your choice. The chapter now has over 300 members, and its newsletter is in its eighth volume.

WIMSA Memorial Foundation

An organization called Women In Military Service for America Memorial Foundation is gathering data to be included in a new memorial to be located at the entrance to Arlington National Cemetery.

The Memorial Center will include an auditorium with a movie about contributions of women in the military; a reception area with souvenirs, books, and displays; and a registration room with computer access to information about registered women veterans.

The computer register, available to the public, will include name, record of service, photo (when available), and memorable military experiences of each registered woman.

Anyone can submit a registration in memory of or in honor of an ancestor by contacting WIMSA at Department 560-F, Washington, D.C., 20042-0560 or calling 800-222-2294. Each registration costs $25.00. Contributions to this congressionally mandated, non-profit organization are tax deductible.

Construction is scheduled to begin in the fall of 1991, but the computer registration may be available prior to that at the Arlington National Cemetery Visitors Center.

As a Mother's Day gift, Pamela Nance Allen and her husband registered his mother, who proudly shared the letter of registration with her friends. We thank Pamela for sharing this information with us.
